

LESCO® *Quality Products for Professionals*

Detailed Description:

The industry standard with new features and new functionality. Improved balance; longer, adjustable, ergonomic handles with improved grips; numerical rate guide; frame and bearing house stiffeners.

Features and Benefits:

- 80lb hopper capacity
- Cam-operated agitator helps eliminate product bridging.
- Shut-off plate features pattern adjustable slide for even distribution of a variety of products.
- Sealed gearbox protects gear set from dust and debris.
- Rear shelf in the hopper to help filter out debris.
- Frame and bearing house stiffeners provide strength to stabilize full loads and help the spreader stand up to the heaviest workload.
- Oversized tires increase stability and provide easier application on taller, thicker grasses.
- Stainless steel frame.
- New shut-off spring location and pre-drilled holes for easy kit installation.
