

FINE BLADED

HEAT TOLERANT

LESS FERTILIZER

WEAR TOLERANT

DISEASE RESISTANCE

Perennial Ryegrass

QUICK FACTS

GATOR 3 is an elite, new and improved, heat and disease tolerant, very dark green, fine bladed, endophyte enhanced variety. It is highly recommended for areas where heat and humidity are an establishment factor. Gator 3 tied for best overall turf quality in the 1999 National Perennial Ryegrass Test, competing against 134 other improved perennial ryegrass varieties. It tied for the second best overall turf quality in the 1999 NTEP perennial ryegrass report across 28 US and Canadian locations.

ADAPTATION

GATOR 3 was developed for permanent poly-species turfgrass blends and mixtures containing improved perennial ryegrass; Kentucky bluegrass; chewings, slender creeping and strong creeping red fescue, colonial bentgrass and turf type tall fescue. Gator 3 is also used extensively in winter overseeding programs on greens, tees and fairways either alone or in species mixtures.

- DARK GREEN COLOUR
- GOOD HEAT TOLERANCE
- HIGH WEAR TOLERANCE
- EXCELLENT TURF QUALITY
- HIGH DISEASE RESISTANCE

TRIAL DATA

1999 NTEP Trial
Turfgrass Quality
 Tested at 28 locations
 in the US & Canada

GATOR 3	6.3
SEVILLE II	6.2
KOKOMO	6.2
LF-LDD	6.2
SRX-9820	6.2
PICK MDR	6.1
SRX-4801	6.1
PINNACLE II	6.1
AMAZING	6.1
CIS-PR-84	6.1

Scale 1-9; 9 = ideal
