

GOOD DENSITY

HEAT TOLERANT

LESS FERTILIZER

FINE TEXTURE

DISEASE RESISTANT

Colonial Bentgrass

QUICK FACTS

**GREENTIME** (IS-AT 7) colonial bentgrass was developed using germplasm from the classic high performer Tiger II. Greentime shows improvements in heat tolerance and disease resistance. Sustainability is high, maintaining a long term quality turf as demonstrated in the NTEP Bentgrass Fairway /Test sown in 2003. Seedling vigor under low maintenance conditions is excellent, and mowing quality in general is unsurpassed, with a very uniform and clean cut.

ADAPTATION

**GREENTIME** is best used for professional applications on golf course fairways and tees and greens, and is very tolerant of closely mowed greens. It is well adapted to the North Central and Northeast regions and Transition area.

- ✓ DARK GREEN COLOR
- ✓ EXCELLENT VIGOR
- ✓ CUTS CLEAN
- ✓ DISEASE RESISTANT
- ✓ HEAT TOLERANT

TRIAL DATA

NTEP Bentgrass/Fairway/Tee Test  
Sown 2003 - Summary of Turfgrass  
Quality Ratings for Bentgrass Cultivars  
Grown on a Fairway or Tee - 2004 Data

Mean Turf Quality

<b>GREENTIME</b>	<b>5.8</b>
SR 7150	5.6
TIGER II	5.6
BARDOT	5.5

Quality Rating: 1-9; 9= Ideal  
LSD @ 0.2 CV % = 7.6

**Greentime has the top quality score**  
for a colonial bentgrass in the  
2003 NTEP fairway/tee test

**Greentime has better turf quality**  
scores than Tiger II in the NTEP

SEEDING RATES

**New Plantings:**  
1/2-1 lb per 1000 sq ft
