

MONSIEUR

Lolium perenne

Perennial ryegrass

Dark green with excellent wear and drought tolerance

- Excellent gray leaf spot and brown patch resistance
- Very high density all seasons
- Superior traffic tolerance
- High drought and summer stress tolerance
- Excellent overseeding performance.

Ratings

Rust tolerance

Colour

Salt tolerance

Disease tolerance

Very good tolerance to common turfgrass diseases like rust but also against less common diseases like gray leaf spot and brown patch (*Rhizoctonia solani*).

Shoot density and wear tolerance

MONSIEUR shows very high density all seasons and superior traffic tolerance.

Drought tolerance

Excellent drought and summer stress tolerance.

Uses

Perennial ryegrass is suited for all uses requiring wear tolerance both for private lawns, public parks and professional sport fields.

The excellent overseeding performance makes it also ideal for overseeding of warm season grasses like bermuda grass for revival of existing cool season grass turf areas.
