

Creeping Bluegrass

COLD TOLERANT

HEAT TOLERANT

SHADE TOLERANT

EXCELLENT DENSITY

RAPID ESTABLISH.

QUICK FACTS

TWO PUTT creeping bluegrass is a new species in the turf-grass world and an exclusive of DLF International Seeds. It is adapted for multiple uses, but where it really shines is on golf greens. Here's what Matt Peltier, Head Superintendent of Springhill Country Club in Albany, Oregon had to say about it:

"**Two Putt Creeping Bluegrass** is the most obvious fit for maintaining putting surfaces where Poa Annuua is being managed. Its growth habits, putting quality, drought tolerance, and similarity in color to the native Poa Annuua make it easily adaptable to an overseeding program, as well as a perfect fit for renovation of putting greens. The feedback from golfers and the constant compliments on the density, color, and speed of greens makes Two Putt the obvious choice for our putting surfaces."

Beautiful putting surfaces of Two Putt can also be found at the Bend and Aubry Glen Country Clubs in Central Oregon.

- UNIFORM, DENSE TURF
- MEDIUM GREEN COLOR
- SHADE TOLERANT
- TOLERATES LOW CUTS
- RAPID ESTABLISHMENT

TRIAL DATA

PLOT COVERAGE

2010 Bentgrass Trials - Philomath, OR

	MEAN
Two Putt	7.1
Cy-2	6.7
Villa	6.1
Pennlinks II	5.9
Cobra 2	5.8
Tiger 2	5.4
SR 7200	4.8

LSD = 0.05 Max Mean = 7.10

SEEDING RATES

New Turf:

2-3 lbs per 1000 sq ft

Interseeding:

1-2 lbs per 1000 sq ft

Growth Habit	Estab. Rate Days	Low Mow tol. 3/16"	Mowing Frequency	Traffic Tol. (Brinkman)	Nitrogen Required	Shade Tolerance	Cold Tolerance	Drought Tolerance	Endophyte Enhanced	Salinity Tolerance
Stolons	Fast 5-7	Excellent	1x week	Good	High	Very Good	Very Good	Average	No	Average
