All Perennial
Wildflower Mix

Our All Perennial Wildflower Mix is made up of 15 species of perennials that will provide many colors for years of enjoyment. When fall planted, the flowers will blossom the following spring. When spring planted, if the conditions are right, there will be some flowering but most will not flower until the following spring. The advantage of spring or summer planting is that the plants have a well established root system for the following spring. This mix will grow to a height of approximately 36-70 inches.

Please be responsible when introducing new species to areas near ecologically sensitive environments

Botanical Name	Common Name	% by Weight
Linum perenne	Appar Perennial Blue Flax	11
Coreopsis lanceolata	Lance Leaved Coreopsis	10
Cheiranthus allionii	Siberian Wallflower	9
