Dryland Wildflower Mix

Our Dryland Wildflower Mixture is made up of 25 individual species and designed to flourish in drier climates or areas that do not get moisture on a regular basis. The mix is made up of 56% annuals and 44% biennials/perennials to give a wide variety of colorful flowers for the first season as well as following years. The wildflower bed will reach a height of approximately 36 - 48 inches.

Please be responsible when introducing new species to areas near ecologically sensitive environments

Botanical Name	Common Name	% by Weight
Eschescholzia californica	California Poppy - Orange	10
Cosmos bipinnatus	Cosmos Sensation Mix	10
Clarkia elegans	Clarkia	7
